JFE Shoji Corporation
JFE Shoji Steel Construction Materials Corporation
JFE Shoji Pipe & Fitting Corporation

Integration of JFE Shoji Steel Construction Materials Corporation and JFE Shoji Pipe & Fitting Corporation
— Toward Strengthening the Domestic Steel Business of the JFE Shoji Group —

JFE Shoji Corporation (President: Yoshifumi Ubagai) has decided to integrate JFE Shoji Steel Construction Materials Corporation (President: Jiro Hirokawa) and JFE Shoji Pipe & Fitting Corporation (President: Shinichi Hagiwara) effective April 1, 2027. Details regarding the representative and executive structure of the new company will be announced once determined.

The business environment surrounding Japan's steel market is undergoing a major turning point, marked by structural changes in demand and the diversification of customer needs. Viewing these changes as opportunities for new growth, the new company will establish a business foundation capable of responding flexibly and rapidly to changes in the business environment. Furthermore, the new integrated company aims to overcome the boundaries of product types and business areas, blending the respective strengths of the construction materials and steel pipe sectors to create new value.

By consolidating the management resources of both companies, including logistics and processing functions, the new company will leverage the expertise and uniqueness developed by each to further enhance its ability to deliver comprehensive solutions. The diverse talent from both organizations will mutually elevate their expertise, challenging new domains with individual creativity to accelerate next-generation challenge and transformation.

We will continue to provide high-value-added products and services across all steel demand sectors, aiming to enhance our presence and become a group of companies trusted by our business partners. Together with our customers, we will shape the future of steel distribution and contribute to the development of local communities and industries.
